

Black River Road

Reopened with Temporary Single Lane Traffic Flow

The Township is excited to reopen Black River Road which has been closed since late fall while the Township Public Works team replaced the damaged bridge. Black River Road will reopen over the bridge as a one-lane road with a stop sign on each side of the bridge. The bridge surface is stone/gravel. Please use caution while using the bridge. The weight limit that was in place on the old bridge has been removed. There will be temporary closures during the daytime hours in the upcoming months to finish this project. Please continue to watch for detour signs. We would like to thank the residents for working with the Township to complete this important project. Please contact the Township at 610-865-3291 with any questions.
