Subject: PennEast Pipeline Project - Update

On behalf of PennEast Pipeline Company, LLC, we would like to thank you for your continued coordination on the proposed PennEast Pipeline Project. PennEast is a joint project of AGL Resources; NJR Pipeline Company, a subsidiary of New Jersey Resources; PSEG Power LLC; South Jersey Industries; Spectra Energy Partners; and UGI Energy Services (UGIES), a subsidiary of UGI Corporation.

As an interstate natural gas pipeline, PennEast will be regulated by the Federal Energy Regulatory Commission (FERC). FERC issued a Notice of Intent to prepare an Environmental Impact Statement (EIS) for this project on January 13, 2015. PennEast filed Draft Resource Reports with FERC in April 2015. Since the Preliminary Draft Resource Report filing in April 2015, PennEast has continued to evaluate potential alternatives to the proposed pipeline alignment based on comments received during the formal Scoping process, ongoing dialogue with federal, state, regional and local agencies, land owners, and the findings from field surveys and engineering analyses.

As noted in our July 24, 2015 update, the overall alignment has been adjusted within the 400 foot survey corridor to avoid and/or minimize impacts to wetlands and waterbodies, cultural resources, agricultural lands and other sensitive habitats. Since that time there have been adjustments to the Project due to the finalization of valve locations. An updated Google Earth kmz file and GIS shapefiles for the entire route are attached to aide in your review and analysis of the Project. (To open the shapefiles, please add a ".zip" extension to the file and then extract the files.) Please let us know if you have any difficulty opening the attached files.

On behalf of Jeff England
PennEast Project Manager
