

ReStore Recyclable Latex Paint Collection Events - 2016

In partnership with Northampton County Department of Community and Economic Development
(DCED)

These events are for Northampton County residents only.

Please follow ReStore's recyclable latex paint acceptance criteria
(attached/ReStore or DCED Facebook).

Events are from 9AM-noon. For more details and additional events,
see ReStore or DCED Facebook.

In the event of extreme weather listen to WFMZ or other sources for
cancellation notices.

- PREVIOUSLY FROZEN
- CONTAINING BIOLOGICAL GROWTH
- PRESENCE OF PAINT SKIN
- HARDENED
- SIGNIFICANT CONTAINER CORROSION
- DEBRIS, SUCH AS DIRT, SAND, GRAVEL, SAWDUST, OR PAPER, ETC.

OPTIONS TO DISPOSE OF NON-RECYCLABLE LATEX PAINT:

1. Mix with cat litter, saw dust, shredded paper or commercial paint hardener in the container dispose with household trash. Place container, with lid removed, outside trash container or in a clear bag so hauler can see paint is solid. Empty and dry cans may be recyclable, check with your hauler or community.
2. Or, pour paint out onto newspaper in a thin layer, let paint dry (usually a day or two) and dispose of newspaper with household trash. Empty and dry cans may be recyclable, check with your hauler or community.
3. Or, remove lid, let paint dry out and dispose of container according to local regulations (could take several weeks or months). Place container, with lid removed, outside trash container or in a clear bag so hauler can see paint is solid.
