

## **ROUTE 412 UPDATE**

Work will occur this weekend to allow for the opening of two lanes between I-78 and Shimersville Road, but the actual opening will likely occur on Tuesday (possibly sooner depending on how everything transpires). On Sunday (12/20/2015) starting at approximately 8 AM and continuing until approximately 6 AM Tuesday (12/22/2015), a single lane condition will be maintained in each direction (north and south) with intermittent traffic stoppages controlled by flaggers from Route 412 at High Street to Route 412 at Daly Avenue. The contractor will perform traffic signal work and line painting work during this time in order to place traffic on the newly constructed southbound lanes between Shimersville Road and I-78. During that time motorists should expect delays, proceed through the work area with caution, and alternate routes should be considered. Rain/weather could delay this work.

Additional work to be completed with this project includes center concrete island construction, traffic signal work in the islands at the signalized intersections, landscaping work, and final paving.

The overall project is anticipated to be complete in fall 2016.

Happy holidays!
