

Tour of Woodland Hills Preserve

In mid-October, members of the Township Council, Township Environmental Advisory Council, and the Parks & Recreation Board were given a hayride tour by Township staff around the Woodland Hills Preserve. The 148-acre former golf course property was

acquired by the Township in 2014 for open space purposes. The property is accessible from Countryside Lane where a driveway and parking area have been installed along with toilet facilities. Two grass trails have been mowed around the property, which allows visitors to hike, bird watch and walk their dogs on leash during daylight hours.
