

Solid Waste & Recycling Haulers

In Pennsylvania, anyone hauling waste is required to have their name, address, and phone number on both sides of their vehicle. Waste Haulers using vehicles over 17,000 pounds are required to be licensed with the PA DEP if they are using Pennsylvania facilities. Most States, landfills, transfer stations and recycling centers have policies and State laws that dictate what may and may not be accepted (ex. Tires, electronics, batteries, etc.) These policies and laws will vary so follow any guidelines issued by your hauler.

Types of Hauling Services:

Contract Service: a municipality contracts with a single hauler to provide trash and recycling services to their residents.

Subscription Services: municipalities without contracts require residents to contact a hauler of their choosing to provide their household with both trash and recycling services (both services are required for mandated municipalities).

Roll-Off Services: this is the temporary placement of a roll-off box/dumpster that you fill at your own pace, typically used for large home or garage cleanouts/renovations.

General Hauling: unlike roll-off services, the hauler will do the cleanout, not the customer. Haulers will typically use a dump truck or pickup truck rather than a roll-off container.

The following is a list of **PA DEP** licensed solid waste (trash) and/or recycling haulers servicing Northampton County. Be sure to contact each company for acceptable materials, availability, collection times and rates.

*Inclusion on this list does not imply endorsement or recommendation, make any guarantees, or assume any liability for the services performed of any individual or company by the County of Northampton. **This list is provided as a courtesy and is in no way intended to be a complete list.***
